

1. Lay the paper pattern the long way and flat on a hard flat surface. Choose a finger from both hands and place them in the yellow-colored entrances at the outside openings at both ends (put a finger at each arrow point).

2. With your chosen finger from each hand, make your way towards the centers allowing your fingers to stay inside the paths. Start with yellow then orange then red then green then dark pink then purple then light blue and finally to the light pink centers...

3. When both fingers get to the center circles, stop and make a wish...

4. When you're ready to leave the center area, make your way back to the outside of the design using both fingers

OR

Play together with a friend where each of you moves a finger through one of the labyrinth patterns.
